GRENADA FAIR OPENS MONDAY

GRENADA PLAYS HOST TO POWER DIRECTORS

For First Time in History Directors Mississippi Power & Light Co. Hold Meeting Away from Jackson—Get-Together Meet with Grenada Citizens—Harvey Couch, President, Speaks.

For the first time in its history, the board of directors of the Mississippi Power & Light Co. held its regular monthly meeting outside of Jackson when they met here last Thursday upon invitation of one of the directors, J. T. Thomas, president of Grenada Bank and its branches. Following an elaborate luncheon served the visitors and several other guests at Mr. Thomas' home, a "get-together" meeting of the power company directors and representative business men of Grenada was held which was presided over by Mr. Thomas. Cowles Horton, Dr. J. R. Countiss, J. B. Perry, L. J. Doak and Mayor W. S. P. Doty each made short talks on behalf of the community and each expressed the belief and hope that the coming of the company into Grenada augured well for the town's industrial future.

At this meeting, J. M. Hartfield, president of the Merchants Bank & Trust Co. of Jackson, L. Garrett, secretary of the Mississippi Power & Light Co. and its affiliated companies, the Louisiana Light & Power Co. and the Arkansas Power & Light Co., of Pine Bluff, and Harvey C. Couch, president of the three companies, also of Pine Bluff, made brief addresses on the company's work. Mr. Couch outlined the policies and objects of his organization and told how it hoped to be of service to the southland.

Other directors here from a distance were L. V. Sutton, vice-president and general manager, R. B. Fowles, treasurer, and Hugh Critz, industrial commissioner for the company, all of Jackson, and S. R. Whitten, insurance man, also of Jackson. Mr. Couch's son, Johnson Couch, was here, too.

The business meeting of the directors was held later in the afternoon at which time routine matters were brought up and disposed of.

PRESBYTERIAN MEN PLAN SQUIRREL SUPPER TODAY

The Business Men's Bible Class of the Presbyterian Church will have a squirrel supper at seven o'clock, Friday evening, October 18th, at the church building. It will be an informal, get-together meeting for the men of the congregation, with splendid music, a few short talks, lots of good fellowship, and plenty to eat. Dr. T. S. Smylie, pastor of the Evergreen Presbyterian Church, Memphis, Tennessee, a man's man and a particularly attractive speaker to men, will make the principal address. Every man of the Presbyterian congregation, whether he belongs to the class or not, is cordially invited and urged to be present at this supper.

GIRL SCOUTS MEET

Troop 1 of Girl Scouts had their meeting Tuesday afternoon, Oct. 15. Plans for the fair were discussed. After this the patrols had their meetings and decided upon the particular work that each will do next week at the fair. The plans for serving at the fair have been completed and the scouts will be there ready to assist anyone who needs them.

MR. AND MRS. HONEYCUTT DEEPLY APPRECIATIVE

My wife, since the beginning of her protracted illness, has so often said that she wished it were possible for her to tell the many who have sent flowers and who have shown such an interest in her otherwise, that we have both decided to attempt to express through the columns of The Sentinel our gratitude, hence this public statement. Only those who have lingered on beds of illness and who because of that illness have drunk of the perfumes of Paradise and have had opened to them the real beauty and Christian solicitude in the lives of people can understand our feelings. May God in his boundless and generous mercy bless one and all and may we each and all of us strive more day by day to serve and please Him.

Most sincerely and gratefully,
MRS. H. L. HONEYCUTT,
H. L. HONEYCUTT.

Grenada, Miss., Oct. 16, 1929.

GARNER BROS. ARE HOSTS TO FUNERAL DIRECTORS

A group meeting of the Funeral Directors' Association of North Mississippi was held in Grenada, Oct. 10, when 40 members of the organization convened at Masonic Hall. Between the afternoon and evening sessions, George Garner, of Garner Bros., local funeral directors, entertained the visitors with a squirrel and chicken barbecue at "Jake's Place," two miles east.

Officers of the visiting association are J. O. Strickland, Yazoo City, president; Warren Ferguson, Jackson, Miss., first vice president; H. H. Gunter, Columbus, second vice president; Guy Nason, Starkville, secretary. The next group meeting will be held in Jackson on Dec. 3.

IS SEEKING RELATIVES

Lee Ingram, Route 3, Shawnee, Okla., writes The Sentinel under date of Oct. 8 saying that he is a young man lost from his relatives and states that he would appreciate any assistance given him in locating his kinsmen. He states that his grandfather, Samuel Ingram, lived at McDonald's Mills, in Chickasaw county, Miss., in 1892. His father's name was George Abner Ingram.

The Sentinel hopes that the young man will soon be placed in touch with his relatives and that they will be reunited.

41st North Mississippi Fair Will Be Center of Attraction for This Section All Next Week

Every Department Expected to Be Overflowing with Exhibits—Seven Counties Reserve Space for Agricultural Displays—D. D. Murphy Shows Midway, Sun Bros. Circus in Afternoons and Pramar's Revue in Evenings Promise Entertainment—Thoroughbred Horses and Greyhounds to Furnish Racing Program—Dairying and Poultry Exhibits to Excel—Great Crowds Expected All Week.

Every exhibit space at the North Mississippi fairgrounds has been reserved for the 41st annual fair here Oct. 21-26, inclusive, and fair officials are elated over the prospects for the biggest exposition in its more than two score years of existence. Seven counties have asked for space to display the pick of their agricultural products besides the numerous communities that will have displays and the live stock barns will be crowded with prize winning cattle. The showings in the woman's department will eclipse any shown heretofore and it is apparent that more than ever interest in every department is at the highest.

The dairy exhibits, which are to be confined to the state of Mississippi, will include some of the finest dairy cattle ever shown here. During recent years, Mississippi, and especially north Mississippi, has been awakening to the advantages and the possibilities of dairying and many believe that with the growth of this important farm industry this section will soon become the "land of milk and money". Visitors to the fair next week should by all means give close attention to the displays in this department.

Every indication points to an overflowing poultry building. Birds of a feather will flock together and there one may see the finest breeds of all varieties of poultry and those interested in this valuable adjunct to farming should be enabled to get some practical and worth while pointers from the poultry displays.

The D. D. Murphy Shows on the midway with its various rides and shows, widely and favorably known in this section since it has played the Grenada fair for several seasons, will furnish a part of the amusement attractions. Pramar's Revue at night and Sun Bros. Circus every afternoon will add their share to the entertainment of the visitors while interest in the forthcoming race program is unusually keen.

Eighty or more thoroughbred horses, whose owners plan to make the winter season on the New Orleans tracks, will be here to compete for the liberal purses offered and dog races every afternoon will prove a novelty here. Fifty greyhound owners have already made applications for kennels for their dogs. These greyhounds have raced on several of the big tracks over the country and some fine sport is assured in this respect.

Fair authorities are elated over the addition of these features to its racing program. Seldom has Grenada witnessed such sport as will be seen on the fast half-mile track at the fairgrounds next week. Some of the finest thoroughbreds in the country have already arrived and are exercising daily for the contests during the fair. One of Chicago's largest greyhound tracks will close Saturday and a reat number of racing dogs will leave there Saturday night by fast express bound for the Grenada fair.

Fifteen thousand school children, who have been given free tickets, will help to swell the attendance on school day, Oct. 22, while hundreds of former Grenada countians have signified their intention of being here on homecoming day, Oct. 24.

Reduced rates have been granted by the railroads and for those coming by motor ample free parking space will be provided. Grenada is expecting as large crowds for the fair this year as were here when John Borden first introduced polo in this section.

SHRINERS WON'T BE HERE

The Sentinel is advised that, owing to unforeseen difficulties, the Shrine Motorcade from Wahabi Temple, A. A. O. N. M. S., Jackson, Miss. will be unable to make its contemplated trip to the Grenada fair next week as previously announced. The entire motorcade has been cancelled, to the regret of the members of the Temple and of those people in towns the Shriners planned to visit.

VIOLATING POSTAL LAW

Circulars Being Placed In Mail Boxes.

The Grenada Post Office desires merchants and other advertisers in Grenada and elsewhere, to know that it is a violation of postal laws to use mail boxes either in the city or on rural routes for depositing circulars or advertising matter. This has been done several times right recently on routes out of Grenada. The only way to make use of the mail boxes is through the post office. Those concerned would do well to give attention.

HENRY LAMON DIES

Henry Lamon, 84, died Tuesday at his home near Graysport after an extended illness. Interment was had the next afternoon in the old family burying ground nearby.

Mr. Lamon, who had never married, lived more or less the life of a recluse. He had never united with the church but lived according to the best lights before him. He was a native of Grenada county, having been born in the place where he died.

One sister, besides other relatives, survives. To those who mourn, The Sentinel tenders condolence.

TRUCK CALLS SATURDAY FOR FLOWERS FOR FAIR

Mrs. S. A. Morrison, superintendent of the woman's building at the North Mississippi Fairgrounds, has requested this paper to ask that all who have potted flowers to go to the woman's building call her before Friday night (tonight) as the truck will make the rounds early Saturday morning to collect these flowers and she is anxious that none be left out.

Suggests Grenada Be More Friendly

Grenadian Says Grenada's Beauty Unexcelled but Citizens Should Show More Hospitality to Strangers and Should Exhibit Better Spirit of Neighborliness.

Editor Sentinel:

Several days since I came across an article in the Commercial Appeal entitled "Welcome to Strangers" which appealed to me and I am enclosing it hoping you will publish at least a part of it for in these days of fast living, flying machines, and rapidly moving automobiles, Grenada, the City Beautiful is not what it once was. The great hand of welcome is not so much in evidence as it used to be. Our city is beautiful, so much so that lately a man traveling from California to Maryland stopped to say to one of my neighbors "you have the prettiest town through which I have passed since leaving Los Angeles, and I could not go on without saying so." But with all its beauty of streets and houses, the warm hospitality which is carried in a visit or a word of welcome to new comers is lacking. We need to step back a decade or two and live again in neighborly deeds. I am wondering if many of us really know what the word "neighbor" means. I think we would have a better world if only we would look around and see those who need us, who are really our neighbors, and who are in need of being made to feel we are glad they have come to live with us. Now Mr. Editor I believe a reproduction of this enclosed may make up a few of us who are half asleep.

XXX

There follows a part of the communication which the above writer refers to:

"Never, in all my experience in traveling over the country with my husband and baby daughter, have I made my home among people as friendly, courteous and warm-hearted as the Memphians. Truly, in every sense of the phase, I have enjoyed the 'hospitality of the south,' and have never for a moment felt a stranger here, although a thousand miles away from home.

"Soon after becoming located in the city, I was thrilled to receive a visit from 'The Welcome Wagon' and their charming representative, Mrs. Wimmer, who presented me with various supplies, free of charge, and a pass to Loew's Palace Theatre, also a subscription to the Press-Scimitar for two weeks. Also in the mails came a letter from the Chamber of Commerce for my husband, welcoming him as a new citizen to Memphis."

COTTON REPORT

There were 5,218 bales of cotton, counting round as half bales, ginned in Grenada County, from the crop of 1929 prior to October 1, 1929, as compared with 2,986 bales ginned to October 1, 1928.

ANNOUNCES FAIR SALE

Pressgrove Dry Goods Co's. Annual Fair Week Sale, which started yesterday, Thursday, Oct. 17, and is to continue throughout fair week, is announced in this issue of The Sentinel and double page circulars have been sent all over this trade territory telling of this big event. Thrifty shoppers hereabouts have learned to watch and wait for this annual affair for they know that big values are offered in every department of this completely stocked store and they know that here they will find bargains unsurpassed.

Pressgrove's needs no introduction. The policy of this store and the uniform courtesy and consideration it shows to its customers is known far and wide. Its prices at all times are known to be in line with the market and when it announces one of its seasonal sales, the buyer knows that he is going to be able to take advantage of extremely low prices.

Much of interest awaits one in this big event. This paper would suggest that its readers study the half-page announcement in this issue and if they have not seen one of the store's circulars it would advise them to secure one at once and see what remarkable bargains are offered.

A cordial welcome awaits you at Pressgrove's Fair Week Sale.

DR. E. W. CURLE PASSED AWAY IN CALIFORNIA

The many old friends and acquaintances of Dr. E. W. Curle in Grenada county will regret to learn of his death which occurred at his home in Fresno, California one day last week. He was 86 years old. He is survived by one daughter, Miss Mary, who lived with him and another daughter, Mrs. Hemphill, of Mobile, Ala.

Dr. Curle came to Grenada county shortly afteh the close of the Civil War. The cork leg he wore bore mute evidence of the service he rendered as a Confederate soldier. He served as deputy sheriff under L. French and then cast his lot in district 5, where he farmed, taught school and became a local preacher in the Methodist church. Later he studied medicine and practiced his profession in that section of the county many years. His wife was a Miss Shaw, a cousin of the late Mrs. W. M. Dubard. Dr. Curle met all the essentials of the loyal friend, the good neighbor, the useful and thoughtful citizen and Christian gentleman. The writer esteemed him as one of his good friends.

He moved to California something like 35 years ago, and had succeeded reasonably well there in business. Besides his daughters, he is survived by one brother, S. J. Curle, of Holcomb, to whom The Sentinel tenders sincere sympathy.

HIGHWAY COMMITTEE VISITS HERE TUESDAY

Legislators Studying Mississippi's Road Problems Guests of Rotary Club—Tell Facts Learned about Highway Building—Listeners Favor Increase Gas Tax for Road Construction.

The Grenada Rotary Club at its meeting Tuesday enjoyed a feast of addresses.

P. T. Lagrone had previously been placed on the program by the program committee to talk on "Edison Week", and inasmuch as what he might say would not be appropriate later, he very generously offered to talk while the others were partaking of dinner and to be brief in order to make sure of more time for the visiting legislators. He was interesting in what he said. He handed around a duplicate reproduction of the New York Herald of Dec. 21, 1879, which contained a great deal of matter about the invention of Edison and pictures of his lamp.

The three members of the highway committee of the Lower House of the Mississippi Legislature were present. They were: H. S. Stansell, J. C. Satterfield and L. L. Posey, who are visiting different sections of the state to discuss with the citizens the building of highways and how best to finance such a program. Mr. Stansell made the principal address.

Among other things they said there are now outstanding road bonds issued by the various counties to the amount of over $68,000,000 and more than $18,000,000 by the same subdivisions for all other purposes, and that there are $24,000,000 in bonds outstanding of state issue. The taxpayers are paying an interest charge of $2.15 per minute or over $3,000 per day.

These gentlemen said there were three ways of getting the funds to build roads; to increase the gasoline tax or privilege tax on automobiles or issue bonds.

It was shown, among other things, that the following exists as to bond issues in Mississippi and other states for roads:

1. That 21 states have issued no highway bonds—all highway construction being carried on by current revenue supplemented by county bonds.

2. Ten other states have issued less than 10 million dollars in bonds.

3. A total of 31 states have issued less than 10 million dollars in bonds.

4. Nine states have financed their roads with bond issues totalling over 50 million dollars.

5. The 9 states issuing over 50 million dollars for roads are: California, Illinois, Maryland, Missouri, New Jersey, New York, North Carolina, Pennsylvania and W. Virginia.

The remaining 8 states have taken a middle ground by issuing road bonds between 10 and 50 million dollars.

7. No states have issued 80 million dollars in road bonds.

8. The last complete compilation of bond issues by the various counties of Mississippi for roads, total $68,413,304, and there have been some bonds issued since then.

9. The total road bonds of the counties of Mississippi exceed all the road bonds of 35 of the 48 states.

10. The states whose total issues of bonds by counties and the state together exceed the bond issues of the counties of Mississippi are: California, Illinois, Iowa, Missouri, New Jersey, New York, N. Carolina, Texas and W. Virginia.

The opinion of every man present was asked and a majority agreed that an increase of the gasoline tax would be all right. Only about half thought it would be wise to increase the privilege tax. In addition to an increase of the gasoline tax, several thought that a limited bond issue would be necessary to initiate the work and it was insisted that the work of highway construction must be centralized.

The members of the highway committee are paying their own expenses in visiting over the state and they seem to believe that the January session of the legislature will develop a road bill that will meet the approval of both branches of the legislature.

The committee went from Grenada to Water Valley and then to Oxford.

O. E. S. TO MEET

There will be a stated meeting of the Grenada Chapter No. 253 O. E. S. Tuesday evening, October 22, at 7:30 o'clock at the Masonic Temple. Degrees will be conferred. All members are urged to be present.

THE CHURCH HAS BISHOP CANNON ON ITS HANDS

His royal highness, Jimmy Cannon, who, at sundry times and on divers occasions, officiates as a bishop in the M. E. Church, South, returned from across the seas a few days ago, making his fifty-first time, we believe it is, to cross the ocean. No doubt he had been to minister to mission fields and to tell missionaries, perhaps, to accept nary a dollar from any bucket shop patron or stock speculator(?). Jimmy lit in Virginia and at once used his bazoo to tell the people of that state what they should do in the pending gubernatorial election and, after having divested himself of this unsolicited advice, turns his attention to industrial matters and unlimbers his verbal batteries on these things. He then beats it for Brazil there to minister in his meek and saintly way(?) to mission fields—traveling all the time on expense money provided by the membership of the Methodist church.

Bishop Cannon's conduct in sundry ways for many months causes many Methodists to think that he seems to have forgotten the words used by Paul in his first letter to Timothy in which we find these words: "A bishop then must be blameless****not greedy of filthy lucre". (I Tim. 3—2, 3.)

Likewise the Bishop seems to be one of those who thinks the laws of the Methodist church are for the other brother to keep and not for him. The discipline of the Methodist church provides for many queries and solemn promises in the consecration of a bishop. One of the questions asked reads in part as follows: "Will you deny all ungodliness and worldly lusts and***show yourself in all things an example of good works unto others?". We are wondering if it is claimed for the Bishop that he has kept the above vow or that he is keeping it now. We are wondering if it is claimed for him that he has measured up to the standard fixed by Paul by keeping himself "blameless".

The attempt to hide some of the Bishop's worldly activities behind President Hoover is fallacious. President Hoover has on sundry occasions put himself on record against religious intolerance and has endeavored to show the baneful effects of religious bigotry on the life of the country.

Methodists as a whole believe that religion should be taken into our politics, but the church into politics, never. Of course it is possible that they may be wrong about this. It may be that the founders of this government erred grievously when they promulgated the doctrine of the separation of church and state.

As Americans who hold to the doctrine of the freedom of speech and of the press and liberty of action we are wondering if there can be any sound reason offered why one should any more lend his ears about politics to the parson than to the priest? We have always thought that what is suitable sauce for the goose is also good for the gander.

The Bishop prances into the political field on one foot. Regardless of the number of strings to his bow, he uses only one. Everything else is lost sight of in the prohibition issue.

We are wondering at what a marvelous difference there would have been in the world's history had Moses been favored with the Bishop's presence when he went upon Mt. Sinai to receive the Law. The Bishop would have had old Aaron and his golden calf makers falling before his shrine.

Gen. Grant, it is said, stated during his term as President, that there were three political parties in the United States, instead of two, and that those parties were the Democratic and Republican and the Methodist church. Was he right? He was a Methodist.

The great Dr. Steele, in his "Gumbo" article in the Commercial Appeal of September 30, complains that those who have been calling Bishop Cannon to account for his bucket shop speculations should see that the press tells the story that some Catholic priests were likewise guilty. The Doctor should wake up. You bet your life the press told the same tale on the priests that it did on Jimmy. As proof of what we say, we quote from the New York World of June 20, as follows:

"Among other customers of Kable & Company are two Catholic clergymen, Father Gregory Kulczyski and Father John Marsalek of Ford City, Pa. The amounts involved in their accounts are not stated in the papers on file, but both priests have made complaints and are listed as witnesses in the indictment papers against Kable and Goldhurst."

The men who do things, while others are galivanting around and sometimes breathing forth smoke and lava, ran the saloons out of the land. Bishop Cannon was no doubt used in this crusade. The saloons have gone to stay gone. Yet none but the blind and the deaf will say that whiskey is not being sold despite all laws and everything that can be done. The question is not up to zealots or fanatics, but up to the people who believe in the home and who believe in staying at home all they can and who have the good judgment and the discretion to separate the chaff from the wheat and who have the backbone to look a situation squarely in the face—these are the ones who will in the last analysis guide the bark of the body politic to the shore of safety. These are the ones who will preserve the cause of real temperance and who will write what may be necessary to amend the present prohibition laws. No law ever written has ever changed human nature; it never will.

But in the meantime the Methodist church has Bishop James Cannon, Jr., on its hands. In our humble judgment there is more wrapped up in what the church shall do with its political Bishop than many realize.

PREMIER BRITISH CABINET GUEST OF PRESIDENT

Premier Ramsay McDonald of Great Britain was in Washington the guest of President Hoover. The purpose of his visit was to seek to agree upon a basis of disarmament. His mission was one of peace. It is one of the impossibles now to recognize the breadth or the far meaning of what the conference of these two great world leaders means to humanity. The work they have set their hearts to is like unto standing at the base of a great mountain—cannot comprehend its height and grandeur until it recedes or until we ascend its slopes.

Efforts to keep out of war at the present time are the fruits of the cultivation by many others for years, particularly do we believe that Woodrow Wilson's pressing this greatest of all governmental questions upon the attention of the world in the manner he did and at the time he did has done more than the work of any one man in crystallizing the thought of the world on guarding against war.

We believe that President Hoover and the British statesman are desperately in earnest and that they will go the length of their cable tow in consummating plans that mean for peace on earth and good will towards men.

Birthplace of the first practical incandescent electric lamp, Menlo Park, N. J.

As the sun lifted itself above the horizon on the morning of October 21, 1879..... penetrated the gray shadows that hemmed the mantle of night...transformed bleak space into natural living colors.....never did the world dream that this sun smiled benignantly down upon a building wherein a new light was to be born that day.

This new light was destined not only to prolong day.....revolutionize and even create new industries.....change the living habits of the world.....but to immortalize the man who created it — *Thomas Alva Edison.*

This year marks the fiftieth anniversary of Mr. Edison's great invention. A half century has passed since the glow from the first practical incandescent electric lamp made possible a world flooded with light at the flip of a finger on a switch.

In Light's Golden Jubilee a grateful people finds opportunity to pay tribute to the father of many human comforts. For Lights Golden Jubilee brings to Edison the greatest tribute ever paid a living man.

It is ours, your, everybody's privilege to join in praise to him who has so touched our lives and made them brighter.

On the fiftieth birthday of modern electric lighting, let us express our gratitude to Thomas Alva Edison.

Nature Thought of Everything

Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. USEFUL WORK A CHRISTIAN DUTY

LESSON TEXT—Gen. 2:15, Ex. 20:9, John 5:17; John 9:4, Acts 20: 33-35, II Thess. 3:10.

GOLDEN TEXT—This we commanded you, that if any would not work, neither should he eat.

PRIMARY TOPIC—Doing Our Work Well.

JUNIOR TOPIC—Doing Our Work Well.

INTERMEDIATE AND SENIOR TOPIC—Honest Work Essential to Success.

YOUNG PEOPLE AND ADULT TOPIC—The Gambling Spirit Hurtful to Business and Morals.

I. The First Man Set to Work (Gen. 2:15).

Work was God's primal thought for man. Even in the state of innocence man was to have useful employment. With the coming of sin, new burdens were added.

II. The Time to Work (Ex. 20:9).

"Six days shalt thou labor and do all thy work." Six out of seven days should be devoted to work. Idleness on any of the six days is as great a sin before God as working on the seventh day. Let it never be forgotten that the fourth commandment is an ordinance of labor as well as rest; in fact, there can be no rest unless there has been work. The idler and the Sabbath breaker are equally guilty before God.

III. The Working of the Father and the Son (John 5:17).

The God of the Bible is a working God. It is true that God, when His creative work was done, rested; that is, desisted from creative work, but there is other work besides that of creation. There is no such thing as inactivity in the divine kingdom. God is in His ceaseless activity everywhere. To be godlike is to be active.

Jesus had healed an impotent man on the Sabbath day. The Jews sought to kill Him for for this good deed, and when He linked Himself with God in this, they more earnestly sought to kill Him because He made Himself equal with God. The special points of equality with God were:

1. Giving life to the dead.

Only God had shown Himself able to raise one from the dead.

2. Judging mankind (John 5:22).

His claim to being the judge of all mankind was His supreme claim to Deity.

IV. Urgency of the Work (John 9:4).

"I must work the works of God while it is day; the night cometh when no man can work."

These words were uttered in connection with the appalling need of the man who was born blind. Delivering lost men and women from their sins is the work of God which must be done. The night is coming when no work can be done. The night, therefore, for the world is when Jesus is withdrawn from it.

V. Paul an Example of Working (Acts 20:33-35).

Paul did not work to hoard up money, but to support himself while preaching the gospel. A truly great preacher is the one who preaches not only in word but in deed. If preachers would show more interest in lost souls than in money, their influence would be greatly multiplied.

VI. The Man Who Will Not Work Should Not Eat (II Thess. 3: 10).

Growing out of Paul's teaching concerning the coming of the Lord, a tendency to idleness developed at Thessalonica. They reasoned that if the Lord's coming was so near, work was useless. The true teaching concerning the coming of the Lord is, "Occupy till I came." Earnest attention to present duty is the scriptural attitude toward the second coming of Christ. Those who will not work should not eat. This is the right principle upon which to base all works of charity. It is the efficient cure for pauperism. It exhibits the right economic order and should apply to all classes.

VII. The Object of Work (Eph. 4:28).

This text sets forth the only three ways by which to get money or possessions of any kind.

1. To steal.

Theft was common among the heathen. It is common today, even in civilized countries. Many ways of obtaining money can be designated by theft.

2. To receive as gifts.

3. To work for.

To have possessions which have been stolen is, of course, wrong. To have that which benefactors have given is right, even though it may not bring a blessing. To have that which we have earned is not only honorable, but gives personal satisfaction in that it has come through toil. All legitimate possessions should be regarded as a trust to be executed for God in giving to those who have not.

PETITION FOR PARDON

To The Honorable Theo. G. Bilbo, Governor of The State of Mississippi:

We, the undersigned citizens and taxpayers of the State of Mississippi, and more especially of Grenada County, hereby petition Your Excellency to grant a full and complete pardon unto Robert Jolliff, who was convicted in the Circuit Court of Grenada County on a charge of Possession of Still and sentenced to serve a term of thirty months in the State Penitentiary, said sentence having been affirmed by the Supreme Court on the 18th day of February, 1929.

We believe the said Jolliff has now atoned for any breach of the law to which he might have been a party; that he has made a good prisoner and his conduct in every respect has been exemplary; that if granted his freedom, we believe he will hereafter make the State an upright, law-abiding citizen, and for these reasons most earnestly request Executive Clemency at your hands.

Respectfully submitted,

A RESOLUTION

The following resolution was introduced, its adoption moved and seconded and put to a vote, Aldermen L. C. Proby, J. P. Pressgrove, W. E. Jackson, J. H. Murray voting for its passage, there being no votes against same, and Aldermen E. C. Neelly, H. L. Honeycutt being absent and not voting, it was declared duly adopted and ordered entered on the minutes as follows:

A resolution declaring the paving with concrete of that certain alley in the East Ward of the City of Grenada, running from Green Street to Main Street and bounded on the North by lots 99 and 100, and on the South by lots 109 and 110, according to plans and specifications adopted by this Board and on file with the City Recorder, to be necessary and looking to a special assessment against the abutting property for the purpose of paying two-thirds of the cost and expenses of said improvement, etc.

Be it resolved by the Board of Mayor and Aldermen of the City of Grenada, Miss.

Section 1. That it is deemed, adjudged and hereby declared that it is necessary to pave with concrete that certain alley located in the East Ward of Grenada, Grenada County, Mississippi, running from Green Street to Main Street and bounded on the North by lots 99 and 100 and on the South by lots 109 and 110. Said paving shall be done according to plans and specifications therefor prepared by W. E. Johnson, engineer, and adopted by the Board and now on file in the office of the Recorder of said City.

Section 2. That in the judgment of the said Board of Mayor and Aldermen the general improvement fund of this city should not be used for the purpose of making said special improvements and is also insufficient for said purpose, and said improvements shall be made by special assessments against the property abutting on said alley on its North side and on its South side as follows: one-third of the cost and expenses of making said improvements shall be assessed against the property constituting lots 99 and 100 on the North side of said alley, and one-third of the cost and expenses of said improvements shall be assessed against the property constituting lots 109 and 110 on the South side of said alley, and the remaining one-third of said cost and expenses shall be paid by the City. Assessments against the property abutting on said alley for the payment of the portion of said cost and expenses chargeable against said abutting property shall be assessed upon the following basis and in the following manner, to-wit: By taking the whole number of front feet improved and dividing two-thirds of the total cost of the whole improvement thereby and multiplying the quotient by the number of feet front contained in such abutting lot or piece of ground, the result being assessable by the Board as the amount of the special tax to be assessed against each lot or piece of ground, respectively, as provided by law.

Section 3. That said Board will meet at the Mayor's office in said city on November 4, 1929, at 7:30 p. m. and will, at said meeting, hear and determine any objection or remonstrance that may be made to said improvements, and will also hear and determine any objection or protest against said improvement which may be presented by any person aggrieved or interested, and if a majority of property owners actually residing on property owned by them in said lots 99, 100, 109 and 110 shall protest against said improvements, same will not be made.

Section 4. That this resolution be published in The Grenada Sentinel in its issues of October 18th, October 25th and November 1st, 1929, and that it take effect and be in force from and after passage.

Hostess to 20th Century.

Mrs. O. L. Kimbrough entertained the Twentieth Century Club Tuesday afternoon in her home on Snider Street.

Choice fall blossoms were artistically employed in the rooms thrown open to the guests.

The topic was "Ideals Illustrated by Washington, Jefferson and Hamilton".

Mrs. R. A. Clanton read an interesting paper. Mrs. W. B. Waterman, Miss Corinne Laney, Mrs. A. C. McLean and Mrs. R. H. Herring also contributed to the program by well prepared talks on the lines and characters of the three great American statesmen who were being studied.

The members answered roll call by naming an American principle that should be emphasized in our homes and schools.

Miss Daphne Pepple sang a beautiful solo, accompanied at the piano by Miss Elizabeth Eason. Both are students at Grenada College. Three teachers from the college were also guests at the club, Misses Susie P. Brown, Ruth G. Bale and Elizabeth Ferguson. Mrs. E. T. Hill, of Elliott, was also a guest.

Later in the afternoon appetizing sandwiches and tea were served.

Would You Know One If You Saw It?

If you ever came face to face with a germ, would you recognize it? Of course it is not likely that you ever will see a germ, unless you own a tremendously powerful microscope, for you would have to magnify one over a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood streams through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is one sure safeguard against these dangers — washing every cut, no matter how small, thoroughly with Liquid Borozone, the safe antiseptic. You can get Liquid Borozone at CORNER DRUG STORE

Mrs. McCaslin Hostess.

Mrs. Bob Counts was the honoree at another attractive party last Friday afternoon when Mrs. A. J. McCaslin entertained at bridge.

Invest in a New Outlook on Life!

A new suit is ofttimes the tonic you need to take a new grip on life—men live up to their appearances—the man wearing the uniform of a soldier is afraid to be cowardly—the monarch in imperial robes cannot afford to be careless—the man dressed for prosperity automatically stiffens his backbone.

If our clothes cost twice as much, they'd still be good values!

A liberal variety of patterns in the new shades of brown, gray and blue at moderate prices.

COUNTY SCHOOL NEWS

By LAFAYETTE ATKINSON
Superintendent of Education

The initial meeting of the Grenada County teachers was held last Saturday in the auditorium of the Grenada High School with the majority of the teachers present. An enthusiastic program was rendered.

The principal speaker was Mr. J. T. Calhoun, elementary school supervisor of the Department of Education, who gave a splendid address on the function and operation of the elementary school in secondary education. His many suggestions were helpful and inspiring.

The Rev. W. E. Farr was present and brought a devotional message that was inspiring and uplifting.

Miss Anita Gann, director of public school music, with the assistance of the primary boys and girls, rendered an enjoyable program in vocal music.

After the general program the teachers aassembled in the various rooms as to their departments and Miss Margaret Ellis discussed the subject of reading in the primary grades. Her discussion was timely and very instructive.

Mrs. Nina Brannor, teacher of English in the Grenada Grammar School, discussed the question of the teaching of English in the elementary schools. Her suggestions and plans for getting results in this work were very instructive and beneficial. The teachers in the elementary grades enjoyed the special program along this line.

In the department of the high school, Miss Estelle Turner, teacher of English in the Grenada school, spoke to the teachers of this group of the teaching of freshman English in the high school. Miss Turner's discussion was very instructive.

The second meeting of county teachers will be held at the same place on the 7th of December at 10 o'clock. All teachers are expected to be present at the meetings. The general theme at this meeting will be the question of health. This is a vital factor in the life and development of the children of any community.

Principals of all schools are requested to make a list of all the boys of the respective schools of the age of twelve and above with their age, name of father, and address and mail to the office of the county superintendent as early as possible.

Principals, trustees and parents are advised that the first Monday of the next scholastic month all children who have not entered school will be expected to be at their post of duty with all necessary supplies for school work. It is the duty of principal and trustees to see that these people are in school at the appointed time.

Tickets have been distributed to the principals of the various schools for the children of school age to attend the North Mississippi Fair on Tuesday, the second day of the fair. Get your ticket from your teacher.

The first month of school was very successful and splendid work was done in the main by the pupils and teachers. But let it be remembered that a good beginning is just half done. I hope that the teachers and pupils will begin to check up and see just what can be done to make the second month of school better than the first. By close study on the part of the pupils, close supervision of the principal and careful instruction and planning on the part of the teacher it will be possible to get better results from the pupils during the second month of school. See what can be done.

The annex to the Wolfe-Hardy School has been completed and pupils have moved in, the teachers have organized their respective groups for the best work possible. With the three teachers and the work well organized it is possible for the community to have a better school than ever. With the cooperation of the parents and the efforts of the pupils and teachers this can be made possible. Let's all get things in line for a successful year's work.

Man So Nervous Feels His Stomach Jump

"I got so nervous my stomach felt like it was jumping. Vinol entirely relieved the trouble. I feel better than in years."—J. C. Duke.

Vinol is a compound of iron, phosphates, cod liver peptone, etc. The very FIRST bottle makes you sleep better and have a BIG appetite. Nervous, easily tired people are surprised how QUICK the iron, phosphates, etc., give new life and pep. Vinol tastes delicious.

To Whom it May Concern:

I am glad to hereby render testimony as to curative value of Robinson Spring Water.

Nineteen years ago my mother was afflicted with a long standing case of Diabetes. She was then about fifty six years old, had lost about thirty pounds in weight and had spent many sleepless nights. After drinking a gallon of Robinson Spring Water every day for six months she regained her health and has remained cured. She is now seventy-five years old, lively and healthy. I am, very Respectfully

Column About Colored People of Grenada County

Items by J. H. Phillips

Mrs. Mary Townes died Sept. 30 at the home of her daughter, Lizzie Merritt, after a long illness. She was a citizen of Grenada for 56 years and a member of Belle Flower Baptist Church. She was born in Richmond, Virginia and was brought to Mississippi a slave, where she was married and reared a family of nine. She lived to the age of 95 years and was loyal to her church and family even until death. She was buried in the West community cemetery Friday after funeral services conducted by Rev. J. M. Weathers at the Church of God in Christ. She is survived by one child, one sister, and other relatives.

The Old Folks Colored Relief Association met Oct. 6th, its regular monthly meeting time, at the public school building. The reports showed that the interest for the cause of charity is improving. The auxiliaries recently organized in the county are responding nobly. The record of receipts are as follows: Rev. B. M. Moss, Frank Ellis, L. C. Johnson, Jno. Brooks, Geo. Ford, Rufus Crowder, Mattie Brown, Gentle Davis, Carrie Clay, each 50c; Willie Johnson, Atkin Jones, Henry Fleming, Jessie Montgomery, Willie Jones, each 25c; total $5.50. The above came from Tie Plant community. Mt. Hermon Auxiliary sent in $1.75; Graysport Auxiliary sent in $1.05; Reuben Donley $3.00; A. H. Henderson $3.00; Belle Flower Church $1.01; public school through Prof. Rogers sent in $5.57. A grand total of $23.88. If all of our people would contribute regularly though small it would go a long way in making this laudable enterprise easy going and permanent. We will be glad to get published through The Sentinel any contribution you may send in.

Mr. A. H. Henderson passes in an announcement that there will be no more cards sent out to teachers as heretofore after this date, but that the programs will appear in The Grenada Sentinel. Read The Sentinel and be posted.

WEAK SPELLS

"I WAS so weak," says Mrs. Josephine Cockcroft, of Baldock, S. C., "that I was not able to do anything.

"At certain times, I suffered dreadfully with pains in my back and sides. My head would hurt—felt like it would split open. Spells of weakness would last for weeks.

"I read of Cardui. I sent for a bottle and began taking it. My case was stubborn, and at times I almost lost hope, but I could see a little improvement. At last I began to feel much better. Then I improved rapidly. For the last year I have been in better health than I ever have been before.

"I give the credit to Cardui, for after I had given it a thorough trial, I got well."

While other engines are straining to their utmost in turning up top speeds, the new Chryslers with Multi-Range Gear Shift and four-speed transmissions purr along nonchalantly registering some 840 fewer engine revolutions per mile of car travel than other cars. For one of the notable achievements of the Chrysler Multi-Range is its ability to develop highest speeds and greatest power with far less engine speed than was ever before possible.

Think what that means in an average year of driving—8,400,000 fewer engine revolutions for every 10,000 miles covered; 8,400,000 fewer chances of imparting wear and tear to the moving parts mechanism; 8,400,000 fewer demands on the gasoline and oil supply systems.

And these brand-new cars give you the smoothest, liveliest, most enjoyable and economical performance in modern motoring. A demonstration proves it.
